Application Fed-Ex Tracking

When you partner and write with Insurance Advocates, we make it easy for you to forward your business to any carrier for which you are appointed within our organization. Our team will make the arrangements for FedEx to pick up your business once each week and deliver it quickly to the carrier of your choice.

- A \$100,000 application begins the program for the balance of the calendar year
- The offer resets each calendar year and begins with your first \$100,000 application
- To count toward the incentive, premiums must be received and applied without cancellation within the 90-day qualification period.

For detailed qualification information, please contact Insurance Advocates at 1-888-487-4861 and speak with your personal marketing representative.
